## STOCKS HAMMERED.

Bear Baid Fegins with the Opening of the Market.

Chicago and Alton Takes a Drop of Over 14 Points.

After Grent Excitement Stocks Again Boom Upward.

The bears held high carnival at the Stock Exchange again this morning. The rober second thought which usually omes with a day of rest failed to prevent another slaughter of securities for slaughter it was.

Some of the very best dividend payers were knocked around just the same as the "fancy" stocks used to be of old. the "fancy" stocks used to be of old. This can only be explained by the stringency in money and the necessities of holders who have got to have cash to carry on their business operations.

Of course, every slump the market takes a number of weak investors and speculators are forced to self. Even Speaker Crisp's statement that he is for the repeal of the Sherman Silver law was ignored by the bears, who slammed things right and left, utterly regardless of everything.

The weakness this morning was occasioned partly by advices from the West that still greater stringency in funds is expected and by an irregular market in London.

The fear that there is something rot-

funds is expected and by an irregular market in London.

The fear that there is something rotten in Chicago Gas, which will force the management to reduce or pass the dividend was another depressing factor. Officials deny the rumors, but demials count for little nowadays, the street having been swindled by so many sother concerns which have had the backing of some of the wealthiest and most respected capitalists and bankers.

The dealings were on a larger scale than at any previous time this season, and considerable excitement prevailed. Some of the heaviest declines were 9 in Pullman Palace Car to 133, 23-8 in American Sugar to 61.3-4, 21-2 in Genveral Electric to 51-2, 35-8 in Chicago Gas to 39, 15-8 in Rock Island to 51-2, 21-4 in St. Paul to 48, 21-2 in Northwest to 87, 41-2 in Burlington to 63-2, 5 in Lake Shore to 104, 21-4 in Louisville to 491-4 and 2 in Lackawanna to 127. Chicago & Alton sold at 1271-3, against 142, the last previously reported sale.

to to-morrow.

The street was flooded with reports about impending trouble in Chicago in the viver.

The decline by two east-side lads before the-mother line than the will of course stimulate could gain its side. owest prices ever known. The decline in the price will, of course, stimulate the export movement of grain and tend to bring more gold from Europe.

The early transactions in call loans were at 1-8 per dem and interest equal to about 51 per cent. per annum. This shows plainly the strained condition of the local money market.

The Sub-Treasury was credited at the Clearing-House this morning in the sum of \$802,000 It is usually debtor.

So urgert is the call for funds that the Sub-Treasury shipped fully 150,000 sliver dollars to Chicago this morning. After 12 o'clock the rates for call loans dropped to 5 per cent. per assum.

The Loan Committee of the Clearing-House to-day sissued \$2,550,000 certificates, making the total outstanding \$25,000.00.

The Assistant Treasurer's credit balance of over \$600,000 at the Clearing-House to-day will probably be paid by the latter in gold certificates. On Saturday there were some gold certificates in the payment by the Clearing-House. Up to the present, beyond the requests for delivery of gilver dollars at interior points, there has been little done at the Sub-Treasury in the direction of shipments of money from this city.

There was a still further recovery in the stock market, the advance from the lowest of the morning being could to 1 a 51-2 per cent. The raily was due almost entirely to the oversold condition of the market. Western Union commanded 1-2 per diem for use, General Electric 1-4, New York Central 3-8 a 1-2 and Lake Shore 1-8 a 1-2.

Sugar opened at 1-16, but the demand

Shore 1-8 a 1-2.

Sugar opened at 1-16, but the demand was promptly supplied, and the rate receded to 1-64.

The supply of stocks The supply of stocks was small when the bears attempted to cover, and specu-lation, taken altogether, had a much bec-ter look.
